Subject:- Application for the position of Web Developer.

Dear Sir,

In response to your job advertisement published on Glassdoor dated 18 August 2021. I would like to introduce myself to you as I believe I have enough skills, qualifications, and experience necessary to make a significant contribution to your organization.

I have studied as well as Web development so that I can keep myself in a good place. I have come a long way in learning web development as well as studying so I believe I can do all your work very easily.

I have a lot of experience in JavaScript, Node.js, Express.js, MongoDB. Totally completed several projects by using React.js, Node.js, Express.js, MongoDB, Firebase, Heroku and stored all files in Github. That enhanced my technical capacity and performance. However, I can assure you that I am a quick learner and adaptive as well as energetic.

I would truly be grateful if I get finally selected for that post and I will prove myself to be an important asset for your company through my dedication, sincerity and the highest level of professionalism.

Sincerely,

Sakhawat Hossain
